Description

Mongoose

VT900

GPS Tracker

When you are looking for a vehicle GPS tracker at a realistic price - look no further.

The Mongoose VT900 has to be NZ's best value, feature packed GPS tracker available.

3g quad band

Just a glance through it's array of features shows it can do almost everything most users want or need.

3G Quad Band - For use in New Zealand, Australia and worldwide.

FREE MOBILE APP - FREE WEBSITE - FREE ACCESS

NO CONTRACTS - NO MONTHLY FEES - JUST SIM CARD CHARGES

DETAILS

Where is it now ?

Open the APP and click "Real time". The map shows where your vehicle is located.

Where was it ?

History shows the route driven. Select 'play' and the screen shows the route taken.
Select any day - last 6 months history always maintained.

Got more than one vehicle ?

You logon with your own chosen username and password.
See all your vehicles at the same time.
Select individual vehicles to see more details.

Any other costs ?

Yes, possibly.....

GPS trackers require a mobile SIM card inserted so that they can communicate with your mobile phone and the website.
Typical SIM costs on PrePay range from \$2.00 to \$10.00 per month depending on usage.

Sometimes the cost can be zero depending on your contracts with your mobile provider.
Otherwise a PrePay can be the least expensive but discuss options with your mobile provider.

INSTALLATION

Installation costs can vary according to vehicle type and whether the engine immobiliser option is fitted.

Installation \$450.00 incl gst (Hawkes Bay Area Only) + 3G Sim Card

ENGINE IMMOBILISER CAUTION

Mongoose only recommends immobilisation of the engine starter as this is safest method.
The stopping of an engine via the ignition or fuel pump whilst being driven may have dangerous consequences.

MONGOOSE MOBILE APP & WEBSITE

The mobile APP is designed for smart mobile phones & tablets.
APP is not compatible with Windows mobile devices.

APP and website are operated by a 3rd party and are provided free for purchasers of Mongoose GPS trackers.

At times the APP and website may be offline due to upgrades, maintenance and back-ups. This is for your protection and improvement in product performance and reliability.

Tracker requires 3G GSM SIM with voice, text & data ability. (Do not use a 4G data only SIM)

Please note: The free access of the APP and website is provided for Mongoose GPS customers only.

The APP and website are used by many GPS companies worldwide and features and functions may change without notice. Mongoose accepts no responsibility and has no control of how the APP or website operate.

Some features in the APP may not be applicable to this model.

The APP and website are self managed. Mongoose can provide initial support if required.

*** Due to continue product improvements, specifications and design are subject to change without notice*
